Extensive HA	14.1	400	130	4.6	96	1972

- Values are approximate, based on calculated results.
- Measuring powder by weight yields the most accurate results. If an exact dilution is not required and powder is measured by volume, powder should be level and unpacked.
- As with any powdered infant formula product, use with immune-compromised infants is not recommended. When such use is recommended by a physician, we recommend following the Academy of Nutrition and Dietetics guidelines for safe preparation, storage, and administration.
